About Me

Highly motivated and dedicated B.Tech. (CSE) graduate seeking an entry-level position in the field of Computer Science and Engineering to utilize my technical skills, problem-solving abilities, and passion for innovation.

PROJECT:

[College Attendance monitoring System]

It is an android based application that provides facilities for recording the attendance of students in a college. In the app, the admin has access to all the features like adding any student, or faculty and seeing the attendance also. Faculty can see the attendance and mark present. This app provides an alternative to the pen and paper method of taking attendance.

[MEDO]

It is an online web application which provides online maintenance to manage different data of a medical store. It is a complete medical shop management software that is designed to ease the workload of medical shop professionals. The main features of this web app include invoicing, inventory and stock control, accounting, client and vendor management.

Internship Experience:

[Suvidha Foundation]

[Remote]

[Aug 2022-Sep 2022]

- Assisted senior developers in developing and maintaining web applications.
- Participated in team meetings, contributed ideas, and actively participated in problem-solving discussions.
- Gained hands-on experience in front-end and back-end development, database management, and troubleshooting.
